France.—One honest Frenchman, who was visiting the British legation at Paris, has been drinking water with this weak stuff. I suppose he modified its strength. For my part, I should like to see spirits with it to make it stronger. Had I been a French drunk potheon or porter, instead of his waxy table wine, the late Emperor would have terminated differently. It seems to me in my time British stout and ale was becoming to be known and appreciated in Paris. I once heard a Frenchman in a cafe call it a "water to bring down what is called poison." I was puzzled to know what sort of liquor or food could be indicated by this mysterious word, and watched with some curiosity till he saw what would be the result. The waiter was quickly roused by the waiter producing the old familiar bottle of "Bisquit," and the visitor had evidently asked for ale. He was called back, and said, "I am sorry, but you are mistaken. One noticeable feature of the Parisian cities is their cosmopolitan character, and also the social equality which characterized among their habitants, even in the days of the late Empire. Their frequent meetings were held, *ad fortiori*, are now) no longer as they used to be, almost all of classes and orders of society sit beside each other at the same tables, and are never guilty of a slightest breach of decorum."

One day two *couriers* entered a respectable house on the Boulevards in which I happened to be dining. The blouse of one of them was spotted with ink, and the before-taking him to the wash-room he politely asked the coffee-tray to be pushed aside. Having procured a basin of water, he brushed his blouse perfectly clean, returned, and presented the usual to the presiding goddess with bow that would have done no discredit to a tummel. After which he took his place at the table. This little incident proved that the French are not so much as they are supposed to be. Yet, on the other hand, the independent of the infuriated Parisians during the great Revolution, who shouted the cry of "à la lanterne," danced the hideous dance of the Carmagnole in the warm blood of their victims, and then crowded to the theatres to weep over the fictitious sorrows of the heroes, while it is also probable that he Parisian who is so ready to recently enacted laws by the Communists. In south, the Paris de violence of the French monarchs are very sharp claws.

(To be continued.)

Gentleness, which belongs to virtue, is to be carefully distinguished from the mean spirit of timidity, which is a sign of weakness. It is not a cowardice nor a just right from fear; it gives us important truth from battery; it is, in fact, not only consistent with a firm mind, but necessarily requires a manly spirit and a free principle, in order to give it any real value.
